

## Editorial

Dear Readers,

It is my immense pleasure to present the first issue of the first volume of the *Scientific Research Journal of India* (SRJI). This journal is the official organ of Dr. L. Sharma Medical Care and Educational Development Society. *Scientific Research Journal of India* is a Multidisciplinary, peer reviewed and open access Journal of science. The scope of this journal is therefore necessarily broad to cover recent discoveries in structural and functional principles of scientific research. It encourages and provides a forum for the publication of research work in different fields of pure and applied sciences. The Journal will publish selected original research articles, reviews, short communications and book reviews in the various fields of science like Botany, Zoology, Medical Sciences, Agricultural Sciences, Environmental Sciences, Natural Sciences, Anthropology and any other branch of related sciences. The Journal will be regularly published and issued quarterly. We shall also publish special issues based on specific themes at the suggestion of the executive committee of Dr. L. Sharma Medical Care and Educational Development Society and members of editorial of SRJI.

I hope you shall appreciate our effort.

Dr. Popiha Bordoloi, Ph.D.
